

OUR GOALS

Our goal is to educate and enrich children's lives through innovative programs and activities. Using the resources available in our community, children will begin to understand the concept of team building and the participants will:

- *Learn and demonstrate positive life skills
- *Appreciate the importance of academia
- *Understand the value of the arts
- *Be involved as a positive citizen in their community

OUR MISSION

Richard Glover and his staff have developed a series of programs designed to fulfill our goals.

These programs include summer football camps, life skills activities and involvement in the Arts.

>The Summer Football Camp addresses the physical health of our children it features Coach Glover using coaching skills to teach the basics of football as he knows it, as an All American and a New York Giants lineman. Campers leave with an understanding of hard work and respect for one another.

>The Life Skills program is an on going program that reaches out to kids in the camp as well as in a variety of other activities. The purpose is to use mentoring in addressing the lives of inner city children.

> To provide fun activities for boys and girls in the inner city at a nominal fee or free of charge.

OUR VISION

Is to provide a network of prevention for families with a focus on children's Academic Health, Physical Health and Social Health. We feel that children can be successful and productive citizens and that they can have fun while achieving it!
